

Mission: To increase the cyber resilience of public and private organizations that are insufficiently equipped to deal with cyber threats

RESEARCH GROUPS

Cyber Security in the SME sector
Rutger Leukfeldt

Cyber Security & Safety
Marcel Spruit

Network & Systems Engineering Cyber Security
Mathias Björkqvist

Risk Management & Cyber Security
Jelle Groenendaal

KEY PARTNERS

IMPACT

KNOWLEDGE DOMAIN

- 13 conferences attended
- 2 conferences organised
- 11 publications (peer-reviewed)
- 3 workshops / presentations
- 6 committees
- 5 book(chapters)
- 4 international networks
- 1 award
- 1 tool
- 2 grant applications funded

EDUCATION

- 52 student supervision (graduation, internships, projects)
- 51 (host)lectures
- 20 workshops
- 2 development of research line for curriculum
- 5 Minors developed/executed
- 3 education material developed
- 3 contribution to curriculum development

WORKFIELD/SOCIETY

- 20 projects
- 11 reports
- 23 workshops / presentations
- 4 policy advice
- 3 tools
- 1 masterclass

HIGHLIGHTS

- Explorative research of **Cybercrisis** within 18 municipalities
- Large-scale scientific research of **Cybersecurity behavior** (2500 respondents) and WhatsApp-fraud (20.000 respondents)
- Evaluation cybersecurity game **HackShield Future Cyber Heroes**
- First batch of graduates **Master of Cyber Security Engineering**

THEMES

People
Human factor
cybercrime

Organization
Information security
governance
crisismanagement

Technical systems
Internet of Things (IoT)
5G
cyberrange

OPLEIDINGEN

Close collaboration with the following courses:

- HBO-ICT
- Communication & Multimedia Design (CMD)
- Safety & Security Management studies (S&SM)
- LAW
- Master of Cyber Security Engineering (MCSE)
