How to use this document

This document contains a list of sample entry requirements for a number of countries / educational systems. Please check if the diploma that you obtained (or will obtain before the start of the academic year) is listed. The table will tell you to which type of programme the diploma gives access: 4-year bachelor programmes only or 3-year bachelor programmes as well.

Do you need to have minimum grades or a minimum GPA?

If, apart from having obtained the diploma, there are requirements in terms of minimum grades or number of subjects, this is mentioned in the table. If no such requirements are mentioned, the fact that you have obtained the diploma itself suffices to be given access to the type of programme.

Are you eligible for *all* programmes if your diploma is the right level?

If, according to the table below, your diploma gives access to our range of 4-year programmes and/or 3-year programmes, it means the diploma represents a level comparable to the corresponding Dutch entry requirement. It doesn't necessarily mean that you are always eligible for admission to each programme within that range. That's because, in some cases, we require that you have taken a particular (set of) (exam) subject(s). Information on subject specific requirements is available via www.thehagueuniversity.com/programmes at *Before the programme*. There you will also find if additional requirement or work-related requirements apply.

What if your qualification is not listed?

We realise that there are many more countries and many more qualifications that we could have included. The list is based on the countries that we receive a lot of applications from, and contains a number of common qualifications that we regularly come across in students' admission files. If your country and/or diploma are not listed you are always welcome to submit your application for enrolment via Studielink so we can have a look at your educational background.

Disclaimer

This document is aimed at providing information only. It's a tool to help you assess if a THUAS bachelor programme is the right place for you. No rights may be derived from the information in this document. To be able to receive a formal decision on admission you must always submit an application for enrolment via Studielink. Please see [How to apply](#) for further information.

International qualifications that give access

Find your diploma in the table below to see which type of programme at THUAS you could consider. In all cases: please remember to apply via Studielink to receive a formal admission decision and always check the programme specific requirements as well as the [language requirements](#).

Country / educational system	Name of qualification	Access to 4-year programmes?	Access to 3-year programmes?
Belgium	Diploma van Secundair Onderwijs, richting Algemeen Secundair Onderwijs (ASO) / Certificat d'Enseignement Secondaire Supérieur, enseignement general	Yes	Yes

Vietnam	Bang Tot Nghiep Pho Thong Trung Hoc / Bang Trung Hoc Pho Thong / Bang Tu Tai / Baccalaureate	Yes	If awarded by High School for the Gifted and GPA >8: Sometimes

Curacao, St Maarten, BES islands

If you have a CXC (Certificate of Secondary Education), you have access to 4-year programmes. Your diploma must be issued by the Caribbean Examinations Council and must contain at least 5 subjects at level general with grades 1-3.

International Baccalaureate

If you have a full IB diploma, you have access to both 4-year programmes and 3-year programmes. Your IB diploma must contain at least 6 IB courses, with a minimum of 3 courses at HL level (> 12 points) and 3 courses at SL level. The total amount of credits must be at least 24 and the Theory of Knowledge (TOK) is a compulsory part that must have been completed successfully.

Ireland

If you have a Leaving Certificate issued in or after 2017, you have access to both 4-year programmes and 3-year programmes. You must have taken a minimum of 6 exam subjects of which at least 2 subjects at higher level with grades H1-H4 for a 3-year programme.

United Kingdom

The entry requirement for UK qualifications is somewhat complicated. As a rule of thumb the following applies:

- For admission to a 4 year programme we generally require a combination of 2 relevant GCE subjects at A-level (grades D-E) or 2 AS-level (grades A*-C), plus 4 GCSEs (grades A*-C or 9-4). This must be a total of at least 6 different subjects, preferably including maths and English.
- For admission to a 3 year programme we generally require a combination of 3 relevant, academic GCE subjects at A-level (grades A*-C) plus 3 GCSEs (grades A*-C or 9-4). This must be a total of at least 6 different subjects including maths and English.

United States

US High School Diplomas are always evaluated individually as they might give access to 4-year programmes only, both 4- and 3-year programmes, or none at all. Our admission officers assess your curriculum based on various criteria such as which subjects, the level at which they were taken, your GPA, etc.
