

Google Scholar

Google Scholar is a very useful tool for finding scientific and scholarly articles. The digital collection of the THUAS-library can be connected to Google Scholar so that you immediately can see if you have access to an article.

When you on campus, these settings are already set. But when you are off campus, you need to set this up yourself in Library links in Google scholar.

Please follow these step to set it up:

1. Go to Settings (you will find it under the 'hamburger menu' in the upper left corner)
2. Click on Library links
3. Search for *haagse* in the search bar
4. Set a mark by *haagse hogeschool*
5. Save your settings

When you have saved these settings, on your next search you will see the linkresolver

Find it @ H/Library whenever full text is available to you via the library collection. Clicking on the link will bring you directly to the full text.

The Trade Law Consequences of "Brexit" Find it @ H/Library

PR Vergano, T Dolle - European Journal of Risk Regulation, 2016 - cambridge.org

... negotiating a Swiss type arrangement with the EU", (Brussels: Royal Institute for **International** Relations, June ... UK could argue that it was an original contracting party to previous **trade** agreements, such ... Here again, it is important to note that the **trading** partners of the EU could ...
